

# NATIONAL BASICS COMPANY LTD

# COMPANY HISTORY

National Basics Company (NBC) was established in April 1998 with the vision of supporting construction companies through the provision of cranes and heavy construction equipment.

As part of its strategic expansion, NBC gradually diversified into subcontract civil construction works. From the year 2000 onwards, the company became a key subcontractor to major EPC contractors, including Saudi Arabian Saipem and GCC.

In 2008, NBC advanced into direct contracting with Saudi Aramco, executing projects related to Sand Removal Services and OMPP works, marking a significant milestone in the company's growth.

In 2023, NBC was awarded its first Lump Sum Turnkey (LSTK) project, "Prepare Drill Sites – Qatif", with a contract value of SAR 437 million. During the same period, NBC also secured a Site Framework Agreement with NEOM Company, under which multiple work orders have been awarded, totalling approximately SAR 1.2 billion.

In April 2024, NBC, in consortium with its Italian partner Max Streicher, was awarded the prestigious "Master Gas Expansion Phase 3 – Package 11" project, with a contract value of approximately USD 616 million.

Currently, NBC is prequalified and listed under Saudi Aramco's General Bid Slate (GBS) for:

- Site Preparation and Temporary Facilities Projects – Category CAT I+
- Onshore Pipeline Projects – Category CAT II

NBC continues to strengthen its position as a reliable contractor delivering complex projects with high standards of safety, quality, and execution excellence.

- 2000+ Employees
- 1150+ Equipment
- 300,000 sq.m yards
- 60+ Achieved KSA Projects
- 20+ years of Experience

An aerial photograph showing a large-scale pipeline construction project in a desert environment. A long, light blue pipeline with a red band is being laid along a deep, straight trench. A yellow crawler-mounted pipe layer is positioned on the left side of the trench, supporting the pipeline. Several white pickup trucks and a yellow excavator are visible in the background on the sandy terrain. The scene is captured from a high angle, emphasizing the scale of the operation.

# ONSHORE PIPELINE PROJECTS

# SAUDI ARAMCO PIPELINE PROJECTS

1.MGS Phase 3 PKG 11 – 56” EWJZG1 : SEC-II STS # 1 TO SHUQAIQ

314 Km 56 Inch Pipeline - Ongoing

2.MGS Phase 3 PKG-10 - Earthworks for Sections 3 & 4

3.Jafurah Upstream Pipelines & Wells Tie-ins (Above 20") (BI -11-19034 / BI-11-20034 )

Jafurah Upstream Pipelines & Wells Tie-ins (Below 20") (BI -11-19034 / BI-11-20034 )

Pipeline - Mechanical, Civil, Telecommunication and CP works ( Above 20 inch & Below 20 inch)

4.BI-10-00907- LTA43 BERRI DOWN STREAM PIPELINES – Site Preparation, Earth Moving and Civil Works

5.BERRI ONSHORE FLOW LINES & TIE-IN-1580

6.Downstream Gas 56 Pipeline-Hawiyah

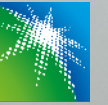

7.Zuluf AH Crude Oil Increment Project (Downstream Pipelines) – 42",30" & 10" PL Civil & Mechanical works

8.HARADH SOUTH GAS COMPRESSION PIPELINE PROJECT - Mechanical & Civil works for 20" Pipeline

9.NAUG FULL CONSTRUCTION OF 20" & 24" PIPELINE

10.CONSTRUCTION OF SHEDGUM-YANBU GAS PIPELINE PROJECT (LOOP-4 & LOOP-5)

# CONSTRUCTION ACTIVITIES

- Right of Way (RoW) construction - clearing and grading, Marl capping, leveling and compaction by using rollers and compactors

- Trenching

**CIVIL WORKS**

# Main Mechanical Activities

- Automatic welding
- Bending

## MECHANICAL WORKS

AUTOMATIC WELDING STATIONS

# Blasting & Coating Activities

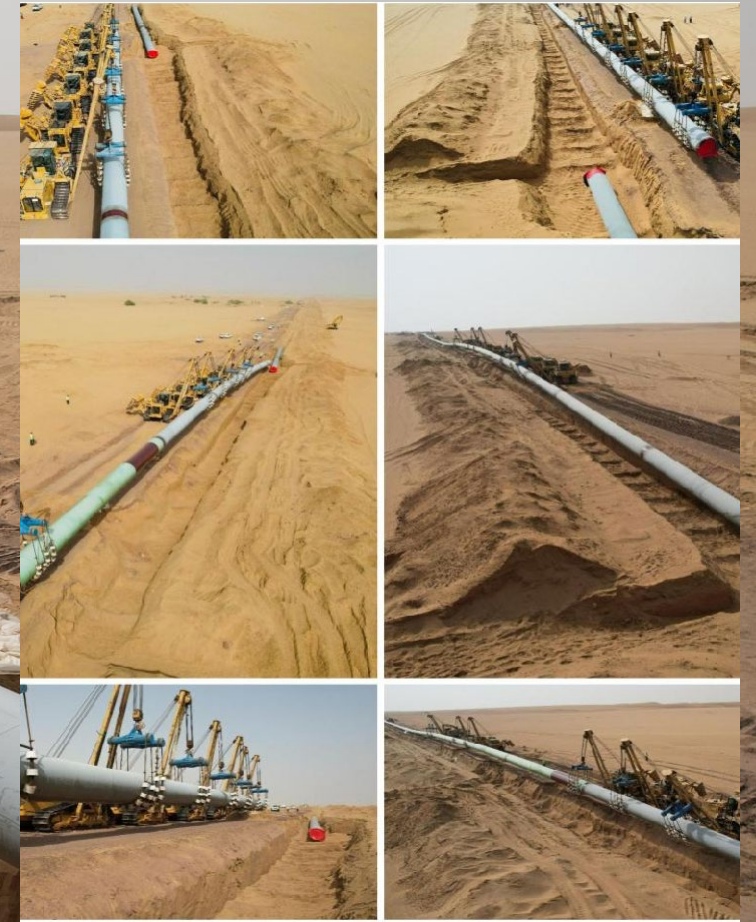

COATING WORKS

## Lowering and Backfilling Activities

Lowering and backfilling of the 56" pipe involves carefully placing the coated pipe into the trench using side booms, followed by protective padding and layer-by-layer soil backfill to ensure coating integrity, pipe stability, and alignment, as per Aramco standards.

**LOWERING ACTIVITY**

42" Lowering at Jafurah

56" Lowering

56" Lowering

42" Lowering at Jafurah

# Washout Protection

## Washout Protection in Pipeline

Washout protection is provided in wadi and flood-prone areas to prevent erosion and soil loss around the pipeline caused by flowing water. This includes the installation of riprap or gabion structures to protect the pipeline, slopes, and embankments from scouring during heavy rain or flood conditions. Proper placement of these materials helps maintain ground stability, protects the pipeline from exposure, and ensures long-term integrity in accordance with project and Saudi Aramco requirements.

Washout Protection

# Berming and Site Restoration

# SITE PREPARATION \_LSTK ARAMCO

<b>Contract No</b>	<b>6601000179</b>
<b>BI No</b>	<b>BI – 10 – 13223</b>
<b>Project</b>	<b>PREPARE DRILL SITES-QATIF</b>
<b>Contract Value</b>	<b>436 Million SAR</b>
<b>DURATION</b>	<b>1124 DAYS (37 MONTHS)</b>

Land preparation, fencing and removal of existing structures of 17 Drill Sites and 4 Pipelines corridors:

- 8 Drill Sites associated with the Oil production and Water injection.
- 9 Drill Sites associated with the Gas production.
- 4 Pipelines Corridors.
- All 21 site will be fenced with Perimeter fence Class-4.
- Demolition and/or removal of buildings, abandoned pipelines, abandoned facilities and other existing structures that can interfere with future drilling activities.
- Relocation of existing overhead powerlines in sites N-1, N-2, N-3 and N4-1
- Relocation of FOC cables in N1, N4 and N4-1 only

# SITE PREPARATION \_ NEOM PROJECTS

# Umm-Wual Phosphate Project Phase 2- Gypsum stack Expansion - MAADEN Project

Contract Value

224 Million SAR

DURATION

48 MONTHS

# Recognition

This Certificate has been awarded to

## NATIONAL BASIC COMPANY

For their excellent efforts and contribution in achieving Quarter  
Million Man Hours without any Lost Time Incident  
"Site Preparatory Works for Pumping Station for Oxagon to Gayal  
Water Transmission System"

January 2023

BERRI DOWNSTREAM PIPELINES PROJECT  
(BI -10-00907) (CRPO #6510929802)

## Certificate of Appreciation

This certificate is awarded to

## NATIONAL BASICS COMPANY (NBC)

For successfully achieving  
5 Million Safe Manhours without any lost time injury (LTI),  
at BERRI DOWNSTREAM PIPELINES Project (BI-10-00907) (CRPO #6510929802),  
July 2023.

Donato Baranelli  
CRPO Manager Saipem

## Safety Achievement

is hereby granted to  
**National Basics Company Ltd.**

In recognition to National Basics Company Ltd. for their contribution towards the project achievement.  
Million Safe Man-hours.

This certificate has been awarded on October 6, 2019 in the  
Northern Arabia Unconventional Gas (UG) Surface Facilities System B Project,  
Saudi Aramco, Kingdom of Saudi Arabia.

Thomas Van Der Merwe  
Project HSE Manager  
SNC-Lavalin

## HSE Performance Award 2019

Snamprogetti Saudi Arabia Co. Ltd.

is hereby granted to

For Your Improved HSE Performance and Exceptional  
Commitment that Contributes  
to the Success of Snamprogetti Saudi Arabia Projects  
Awarded on the 5th of December 2019

Giancarlo Proietti  
Chief Executive Officer  
Snamprogetti Saudi Arabia Co. Ltd.

Fadi Jabbour  
Country HSE Manager  
Snamprogetti Saudi Arabia Co. Ltd.

ONSHORE MAINTAIN POTENTIAL PROJECT DEPARTMENT

## Certificate of Appreciation

Awarded to

## NATIONAL BUILDING COMPANY

In recognition and appreciation for the company's outstanding  
contribution in supporting GUPD achieve the 2014 project tie-ins target.  
The company completed four (4) gas well tie-ins on time and with high  
standards of quality and safety.

Given this 29<sup>th</sup> day of January, 2015.

Abdullah A. Al-Noaim, SR. PROJECT ENGINEER
